Web scraping assignment

Goal: Scrape all private lease cars on www.anwb.nl with their pricing and some additional specifications

Description:

To gather intelligence in the private lease market, we would like to scrape all cars available on this URL:

<https://www.anwb.nl/auto/private-lease/anwb-private-lease/aanbod/>

The data we need (first car as example):

- Manufacturer (Fiat)
- Model (500)
- Price (256,-)
- Fuel type (Benzine)
- Vehicle Chassis (Hatchback)

Desired output:

- 1) CSV file containing the results.
- 2) The script used for the web scraping.
